

## What is an Association Health Plan?

An Association Health Plan (AHP) is a new option for small businesses looking for a health insurance package with affordable rates.

Transcend is collaborating with Blue Cross Blue Shield of Michigan (BCBSM) and Blue Care Network (BCN) to offer multiple employer health care plans designed for businesses with 50 or fewer enrolled contracts.

Association Health Plans are an option among myriad health care insurance choices. Talk with your insurance agent to figure out if an AHP works for your business.

**Please Note:** To enroll in Transcend's plans, you must become a member of Transcend and pay a one-time membership fee. To receive a discount on this fee, mention your Detroit Regional Chamber membership to your agent.

## What are the benefits of AHP?

- Access to an exclusive menu of health insurance plan options from BCBSM and BCN, many of which are not available to small business owners outside of the AHP.
- Access to the BCBSM and BCN physician and hospital networks.
- Special pricing that could lower your premiums.
- Enhanced billing, enrollment and customer service.

## How do I enroll?

### Step 1:

Contact your health insurance agent (or the Chamber can connect you to one) and indicate your interest in enrolling in an AHP with Transcend. Your agent will determine if Transcend AHP is the best option for your business.

### Step 2:

If your agent determines an AHP is the right choice, they will help enroll you in a plan and connect you with Transcend.
